

## Student Volunteer Application

*Sponsored by the International Centre for Diffraction Data*

DXC Students, help us out by volunteering to work at least one half-day workshop and one half-day session at the conference, and we'll help you out by **waiving the cost of your registration!** See how the meeting works behind the scenes, and fill a vital role that helps to make the meeting run smoothly for everyone. **All volunteers will also be entered to win one of two \$50 UberEats gift cards.**

**Volunteer Responsibilities:** Volunteers will be asked to sit in on their assigned workshop and session, introduce yourself to the workshop organizer/session chair, and be available in the case that communication is needed with conference staff when help is needed. We also ask that you bring the completed workshop/session feedback forms to the conference registration desk when the workshop/session is complete.

To be a candidate for Student Volunteer, students must be enrolled in a degree granting program. To apply for the award, please submit this completed application form to Elizabeth Dempsey ([dempsey@icdd.com](mailto:dempsey@icdd.com)). The deadline for applications is 21 June 2024.

Full Name:

University:

Department:

Under-grad

Grad Student

### Choose three workshops you would like to volunteer for:

Machine Learning / Automated Analysis  
X-ray Sources and Optics  
Practical Microcomputed Tomography  
2D Detectors  
XRD Sample Preparation  
Stress Analysis  
Non-ambient XRD  
Basic XRF  
Micro XRF  
Sample Preparation for XRF  
Quantitative XRF  
XRF of Layered Structure  
XRF Trace Analysis

Unisex T-shirt Size:

### Choose three sessions you would like to volunteer for:

New Developments in XRD & XRF  
Cultural Heritage  
Mining, Recycling, and Sustainable Materials  
Bio-Medical  
Machine Learning Techniques in X-ray Analysis  
Energy Materials Characterization  
General XRD  
Rietveld and PDF Applications  
Industrial Applications XRD  
Stress and Texture Analysis  
Non-ambient Analysis  
General XRF  
Trace Analysis  
Quantitative Analysis of XRF  
Micro XRF and Synchrotron Applications  
Industrial Applications XRF

*Conference staff will assign you one workshop and one session while trying to accommodate your requests. Your assigned workshop and session will be sent to you shortly after the deadline date.*

**Email your completed application form, to Elizabeth Dempsey - [dempsey@icdd.com](mailto:dempsey@icdd.com). Return by 21 June 2024.**
